Hi,

There's a portfolio on this module as well, no exam? which other modules are you going to take?

Best,

=====

Hey guys, if anyone who has their material could email them to me, i'd really appreciate it!

email : tasmithakamraj@gmail.com

My registration link still says "In-Process", not sure how long i should wait before i go in to the Unisa Campus.

Thanks in advance!

Hello.

Please advise if there is are any prescribed text books for this module.

Thank you

From Tut_101_2017:

"There are no prescribed textbooks for this module. This means that you do not have to buy any additional books for LML4810. However, some extract from book(s) are provided below."

Anyone who is registered for this module for the second semester this year, please advise if you know the date the portfolio is due next semester? It should be listed on your assignment list, if you've already registered for it.

Thank you so much.

Also, if possible please send me any 2017 study material you may have : pnaidu30@gmail.com

Thank you!!!!

I did this module last semester.

It is fairly easy to pass, but when the lecturer marks assignments etc she very, very strict on things like format of your footnotes, content contained in the assignment. At one point it felt like she wasn't giving any feedback on the work itself, but on the format and referencing of it.

Just a heads up for when you do submit.

I dont just want a pass, after reading previous threads i decided to run for the hills...

I didn't just pass, I got 80% for this.

It is easy to pass, but just be warned that its not just your content that gets looked at.

Honestly, I found this module disappointing as an elective and felt that there was so much more that could have been done with it.

Probably a good idea to change, it is a bit of a waste

Hey all!

I am also registered for this module 1st semester.

Anybody have any clue when we will be receiving assignment dates and actual assignments? Do not see any dates on the regular assignment tab.

In the meantime, good luck with your studies :)

Anybody working on assignment 1 ?

These questions are asked on a very broad scope. I am not sure what to leave out and what to put in. what passage or extract is best to follow? please help?

Good luck guys

Who are the role players in Q1 (A)? I've got infrastructure providers, access providers and content providers (from the Buys textbook). Wondering if that's sufficient?

It also depends which green paper you are referring to. If it's the one in our prescribed work it's national.
